

Declaration of Criminalise Nuclear War Systems conference I

In Saga House Undīne, Dubulti, Jūrmala, Latvia.

Initial meetings: June 1-7th 2015

A series of quarterly week-long Conferences

International Foundation for Research on Radioactivity Risk, www.IFRRR.org, proudly presents the declaration of the first of the conferences organized by Baltic Sea Region Radioactivity Watch in Sweden and Environmental Research SIA in Latvia. The goal of the conference Criminalize Nuclear War Systems (CNWS) is to establish a platform for a global network of independent indigenous judges criminalising the current systems that have brought us to the Nuclear War risk and offering solutions to reach safe systems. Strategy is to exclude research that is at the services of military or other corporate businesses and to present radically honest work by independent scientists spreading their findings to those in power.

Independent scientists of the “CNWS conference I” hereby provide SOS decisions to any locals in power telling them to scan the societies they govern systemically and replace the systemic errors of Nuclear War risk into systems creating thriving societies of Peace-Love-Understanding. These are the orders. Indeed - not following them will keep the society close to the risk of extinction. This is not a drill, but true emergency and a real solution.

Method is scientific and administrative - to criminalise genocidal systems without hurting people within them and to speed up the processes of updating healthy systems.

Referee judges of CNWS agreed on the following primary parameters in criminalization of the matrix of Systems Supporting Nuclear War (NW).

1. We rely on the wisdom and virtues of local indigenous people as a fundamental competence to manage the lands and property of their predecessors and to decide on the power systems.
2. We criminalise the global New World Order corporation that has replaced sovereign states by corrupting the governments and parliaments through godless laws and monetary fraud.
3. We use the ECRR- radiation model instead of ICRP to predict radioactivity risk
4. We criminalise Nuclear weapons and their industries.
5. We criminalise all scientific institutions that support the concept of nuclear war and war as such.
6. We criminalise global financial corporations - IMF, World Bank, Bis.org, Unidroit etc and call for Bretton Woods II like meeting for sovereign National currencies.
7. We criminalise corporate administrative institutions that administer expropriation of property of local people, and commercial banks that finance nuclear war possibility
8. We criminalise corporate media that provides disinformation to people.
9. We criminalise religious institutions that stop human communication with the higher forces and support nuclear war systems.

10. We criminalise education systems that support nuclear war systems.
11. We criminalise institutions destroying health and environment.
12. We deconstruct NATO and all other war mangling corporations.
13. We deconstruct EURATOM.
14. We Love every human being, Protect their divine rights and Understand them.
