Indigenous Take Back of Human Resources from Gene Modified Victims of COVID-pLademic.

By Ditta of Godland.

1.7.12021.

The children of our mother Earth are fooled and mass murdered through nuclear and bio-digital convergence war systems that are enforcing a constant nuclear war economy (www.bsrrw.org, www.nuclearjustice.org). Gods children are hypnotised to work for Satans fiat money weapons, like dollar (BIS.org money value is valueless dollar bill with Satans eye) establishing a death trap for all races and nations. You have woken up to do what still can be done to stop this planetary massacre conducted by Satan.

Indigenous human is of ancient safe ethnogenetical origin and has managed to preserve the culture that is part of the Divine Order of Love and is not engaged in Satanism rituals of drinking blood, eating flesh and any plans of direct or indirect murder, and never starts wars.

Indigenous Take Back is managed by Indigenous human who is lawfully connected to the creator through agreement with Diarchs of Godland, is awake, loving, wise and devoted to protect the living and is a just judge (www.LoveOrder.info, www.nationalstate.info).

Divine rules are given to us by the Gods.

FriendsOathSea (prev. Baltic Sun Model) expresses the 14 areas of our Divine rights and duties that are dual. I love and I am loved, I work for others and others work for me, I judge and others judge me... The circle of these rights is that You are not managed by any people who dont love You.

The tone of the 14 rays of FriendsOathSea Sun Model:

0. I love me, my family, my kin, my tribe, my people, my nation, my race, other races, the raceless, my continent, my planet, my univorce

The practical administration of systemic nuclear war crimes of state and church is following. Such crimes are of genocidal and democidal magnitudes and originate in ancient method to eliminate indigenous people, to privatise their lands and hypnotise them into slavery through education. Any country consists of lands of indigenous people and has legitimate rights to exist only if it is governed by its indigenous people.

To stop crimes You have to restore the Indigenous governance of any pyramidal structure, state or corporation as the structure is illegitimate otherwise. This has to be done transparently providing information to everybody. All stock markets with absorbed state companies have to restore the ownership of any stock to the indigenous people it originates from or the corporations are to be dismantled into units governed by indigenous people, in contract with Diarchs of Godland. Of primary importance here are the structures of any state, any church, any school, any prison, any media, any bank, any insurance company, any police office, any court, any work enforcement operation, any mine, any military object, any institute, any super market, any hospital, any plant etc.

To manage the tasks above mentioned You have to reestablishing Your own Indigenous Courts and issue Your own Indigenous oxa runes instead of any types of fiat money. You claim Yourself and turn all others to be establishing LoveOrder of world wide Godland, instead of Death Cult of Inquisition of genes modifying Jesuit Roman Curria, and accept the Indigenous court decissions of Godland and use World Indigenous Runes (WIR) instead of money for Your large investments as a quadrillion of WIR is available already (www.bsrrw.org www.LoveOrder.info). You establish Indigenous coupone system for redistribution of local goods and You create Indigenous security services.

Know Your Rights – Declaration on the Rights of Indigenous People signed by most countries 13-09-2007.
